Mr. Jay Okimoto

Jay is the President and CEO of Crosswalk Technologies and has worked in multiple healthcare verticals for over 15 years. His areas of focus include facilities and technology infrastructure design, physical and electronic information security, technology-based workflow processes, digital presence and reputation management, and consults on various technology-based liability subject matter.

Professional relationships include Juniper Networks, Fortinet, Symantec, Veritas, NEC, Honeywell, Dell, Microsoft, and many others.

He is a CE lecturer for the Arizona Dental Association and is a member of the Association of Information Technologies Professionals.

Friday Morning - March 17th, 2017

Event Sponsors

Lecture, Roundtable Discussion, and Q&A

- IT HIPAA Compliance for the Small Healthcare Practice
- Data Backups vs. Disaster Recovery Planning
- Unified Communications in a Small Healthcare Practice
- Hiring a Competent Small Practice IT Consultant
- Introduction to Construction Design for a Technology-Driven Practice

This event's format will be of an intimate nature that encourages and allows for one-on-one dialog with attendees. Jay will answer real-life questions and concerns affecting small healthcare practices and providers. His goal is for participants to leave with pragmatic solutions realistically implementable within a small business environment.

Due to the format of this event, attendee enrollment will be limited to a maximum of 20 participants. All attendees will qualify for a scheduled 30 minute pro bono consult with Jay via phone call as an event follow-up.
